

# 4K60P Multiplayer compatible with H.266/VVC & JPEG XS

Powered by original computing algorithm "DMNA" based on mathematical methods

## 1 Summary

It is a media player that can play a variety of 4K60P content. 4K60P playback is performable with the latest compression formats H.266/VVC and JPEG XS.

SRT protocol is supported and you can enjoy stable video viewing even with cloud based video distribution services.

## 2 Features

### ■ Easy to operate

- Compact size and easy location change. Easy operation with OSD menu.

### ■ Supports various compression methods

- H.266/VVC: The bit rate can be significantly reduced with the same image quality as H.265/HEVC.
- JPEG XS: Visually lossless compression technology realizes video playback with almost no image quality deterioration.

### ■ SRT compatible

- It supports SRT protocol, and enables stable video playback when using the cloud or the internet.

### ■ Player functions

- Equipped with network playback function (live streaming, on-demand streaming) and recorded data playback function. Supports trick play, repeat play, etc.

## 3 Specifications

※Specifications are subject to change without notice.

Video formats	H.266/VVC YCbCr4:2:2/4:2:0 10bit、 H.265/HEVC YCbCr4:2:2/4:2:0 8/10bit H.264/AVC YCbCr4:2:0 8bit、 MPEG2Video YCbCr4:2:0 8bit JPEG XS YCbCr4:2:2 10bit、 JPEG 2000 Digital Cinema 2K 12bit
Resolution	Max. 3840x2160 (60/59.94/50/30/29.97/24/23.98 fps) * Max. 2048x1080 24fps in JPEG 2000 mode
Audio Formats	AAC-LC 2ch, 5.1ch
Container	MP4, MPEG2-TS, MMT
Network protocols	SRT, UDP/IP, VSF TR-07/08(JPEG XS option)
Play function	Network playback (live streaming, on-demand streaming) / recorded data playback
Player functions	Play / Pause / Stop / Frame forward / Frame backward (5 frames) / Play 10 seconds earlier / Play 10 seconds later / Play next file/ Previous file playback / Automatic continuous playback of files in a folder
Size / Weight	6.49(W) x 1.69(H) x 7.48(D)inches / 2.2 lbs
Video/audio output	HDMI 2.0bm, DP 1.4
Power Consumption	30W
